- * 1-call loudspeaker master with door release button & call tone volume control.
- * Simple 2-conductor wiring.
- * Call a sub by either tone or voice at master.
- * Desk-top or wall-mount installation.
- * Handsfree remote communication at sub/door station.

3

BEFORE YOU INSTALL AND OPERATE THE EQUIPMENT

-Prohibitions & precautions -

Installation

- Do not connect any terminal on any unit to AC power lines.
- Select the installation locations that would not be exposed to temperature/humidity extremes, water, oil, dust, iron dust, flammable and chemical products, etc.
- Use DC 6V power supply specified below. Never apply DC 12V.
- It is suggested to locate a power supply within 5m/16' from the master station.

Operations

- Be sure to depress OFF button at end of every communication.
If you forgot to depress OFF button, your master station can not be called by tone from sub/door station.

Maintenance

- Clean your LEM equipment with a soft cloth dampened with neutral household cleanser.
Never use lacquer thinner, benzine, etc.
- Do not splash water on door station by hose, etc.

4

SYSTEM COMPONENTS

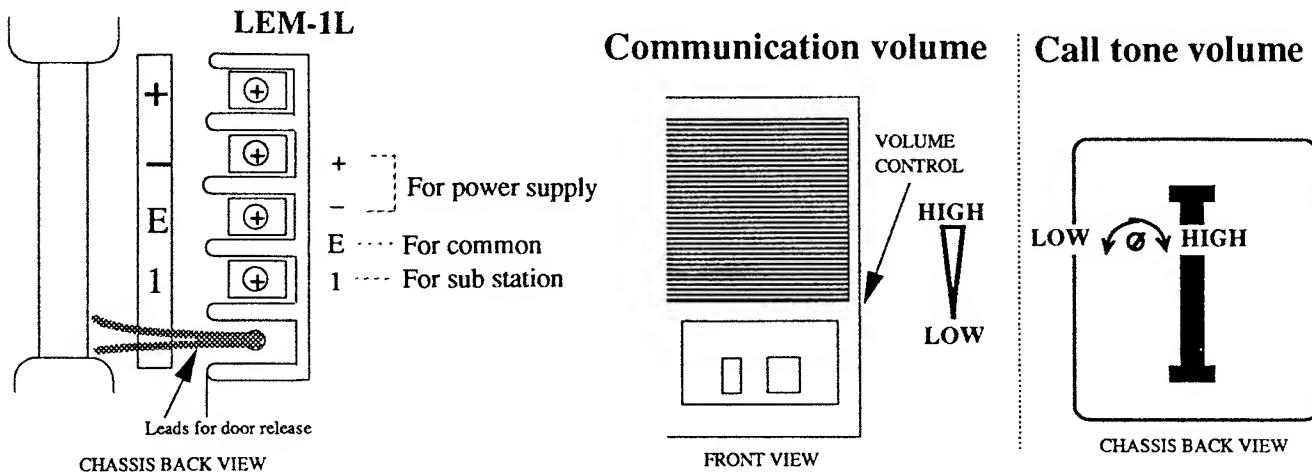

MODEL	DESCRIPTION	QTY.	REMARKS
* Master station;			
LEM-1L	1-call master with door release button	1 pce	Wall/desk use
* Sub station;			
LE-D	Weather-resistant sub, w/plastic cover	1 pce	Wall surface-mount or to 1-gang box
LE-DA	- do - w/stainless cover		
LE-A	Inside sub, desk/wall		Flsh-mount to 2-gang box
* Power supply;			
SKK-620	Power supply DC 6V(USA only)	1 pce	
PS-6D	Standard power supply		
* Door release;			
EL-9S	Door release, AC 12V, 0.35A	1 pce	
PT-1210N	Bell transformer for EL-9S	1 pce	

5

INSTALLATION

Actual terminal location;

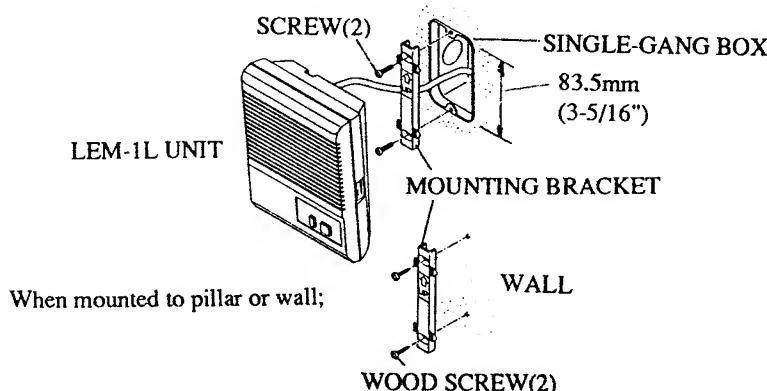

Adjusting volumes;

Wall-mounting;

LEM-1L

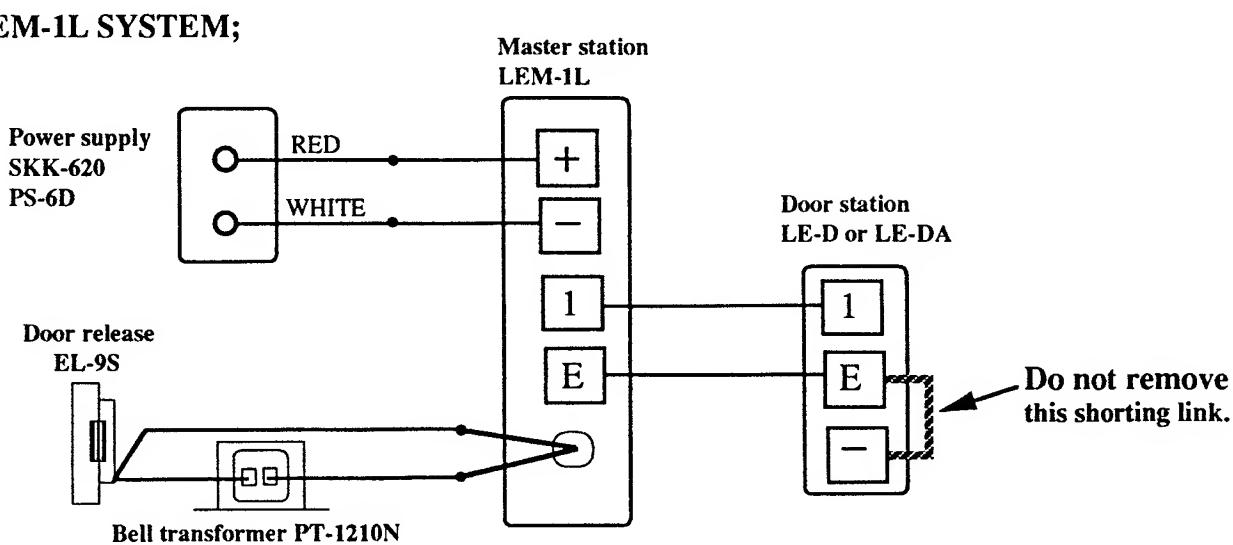

Slide down and remove the mounting bracket on back of LEM-1L unit. Attach the mounting bracket to single-gang box or wall with the supplied screws or wood screws.

6

WIRING DIAGRAM

LEM-1L SYSTEM;

OPERATIONS

Master station; LEM-1L

Be sure that OFF button must be depressed when not in use.

If OFF button is not depressed, sub's call-in will not be signalled by tone at master station.

1. Calling:

To call by tone, depress both OFF and TALK buttons simultaneously.

Call-acknowledged tone is heard softly from your station speaker.

To call by voice, depress TALK button. Control communications by TALK button operation, depress to talk, release to listen. After communication, depress OFF button.

2. Receiving:

Sub station call-in is annunciated by mono tone.

Reply to the sub, by dperessing TALK button, and release to listen to the sub.

3. Activating door release:

After identifying a caller, depress DOOR RELEASE button. The release remains activated while the button is being depressed.

Sub stations: LE-D, LE-DA, etc.

1. Calling:

Momentarily depress CALL button. The call-acknowledged tone can be heard softly from sub's speaker. The call tone signals master while call button is being depressed. When master replies, communicate handsfree.

2. Receiving:

When master calls, simply reply handsfree.

On LE-AN privacy sub, depress CALL button to release PRIV. button, and reply handsfree. After communication, depress PRIV. button.
